- a network of trusted partners on all continents,
- own customs agency (AEO),
- insurance of cargo in transport,
- access to innovative IT solutions,
- transport consultancy.

OMIDA SEA AND AIR CARGO

— FCL/LCL DEPARTMENT

SCOPE OF SERVICES:

For years, OMIDA Sea And Air S.A. has specialized in container and package transportation by sea. We offer transport of containerized goods on a door-to-door basis. In this manner we provide a comprehensive service from the moment of collecting cargo from the sender to the moment of delivering it to the recipient. Such a transport model is an exceptionally convenient solution for the customer, as it relieves him of the need to deal with many burdensome formalities. We handle all types of cargo: full container loads (FCL), less-than-container loads (LCL), goods requiring temperature-controlled containers (reefers), as well as unconventional, oversized and dangerous cargo.

Our professional team deals with comprehensive import and export service to Poland as well as transport of cross-trade containers between other countries. We deal with all activities related to port and customs services, organization of phyto-sanitary or veterinary tests, inspection of goods and reloading. Thanks to a proven network of foreign agents and many years of cooperation with the largest ocean lines, we offer our Clients **cargo handling services all over the world.**

— AIR DEPARTMENT

SCOPE OF SERVICES:

Airfreight is an ideal choice for all companies that require short delivery times. We particularly recommend using this form of transport for high value or time-sensitive cargo. At Omida Sea And Air S.A. we make sure that shipments are delivered expressly, while also ensuring their full security along the entire service route.

We provide **intermodal solutions combining the speed of air transport with attractive ocean freight prices.** Consignments are shipped from Shanghai, Hong Kong, Taiwan or Shenzhen seaports to Dubai (United Arab Emirates) and then transported by plane to Frankfurt am Main.

TIME-CRITICAL

SCOPE OF SERVICES:

Omida Sea and Air Time Critical Service is innovative and unique solution for time-critical freight needs.

Omida Sea and Air services include **air charters, AOG** (Aircraft on Ground), **OBC** (on Board Courier), **NFO** (Next Flight Out), express shipment handling. **Omida Sea And Air** provides emergency deliveries of aircraft spare parts (**AOG**), healthcare, plant shut down for automotive & energy, ship spares and marine logistics.

Our valuable and experienced team gives dedicated solutions, whatever shipping your business require.

RAIL DEPARTMENT

INDEPENDENT LCL SERVICES FROM CHINA TO POLAND

We offer our own centre for LCL services from China to Poland. We offer connections with all industrialised regions. Transport on the New Silk Road is popular due to its strong availability. We currently cooperate with a network of rail agents in China, which gives us flexibility and the ability to adjust to our clients' needs when selecting the right service, date and check-out terminal.

Our LCL Services

We offer our clients the opportunity to collect shipments from anywhere in China. Our consoles leave every week from two rail terminals located in central China – Xi'an and Chengdu, and after 12-14 days they arrive at the rail terminal in Małaszewicze and Łódź. Containers are deconsolidated at our A class warehouse near Warsaw. Rail transport ensures that the China–Europe route can be covered in 12-14 days (terminal-terminal).

RAIL DEPARTMENT

BULK TRANSPORTATION

In collaboration with our partners, for conventional rail freight projects we can offer our customers dedicated rail connections for the transportation of bulk goods such as coke and coal between Poland and Southern Europe and between Southern Europe and Poland for full-load shipments.

We also organise domestic rail freight transport

We also arrange rail transports for bulk cargo in transit using the Ukrainian-Polish border stations in Jagodin-Dorohusk and Izov-Hrubieszow. We give our customers the opportunity to use our railcar facilities consisting of normal-gauge (1435mm) freight wagons of the Tadds, Simms type.

ROAD DEPARTMENT

SCOPE OF SERVICES:

We offer:

- dedicated FTL & LTL road transport
- oversize transportation,
- additional cargo insurance,
- express and just-in-time deliveries,
- ADR - transport of dangerous goods,
- airport and container collections,
- carrying out of customs clearance,
- refrigerated transport.

We offer dedicated transport with vehicles from 1.5 to 24 tonnes using all of the most popular types of semi-trailers. We transport full truck loads (FTL) or less-than-truckloads (LTL).

CARGO PROJECT DEPARTMENT

SCOPE OF SERVICES

LOADING GROUPS

CARGO PROJECT DEPARTMENT:

- air and construction machines,
- boats and yachts,
- industrial equipment,
- brewery and vineyard tanks,
- transformers and windmills,
- elements for the oil and gas sector.

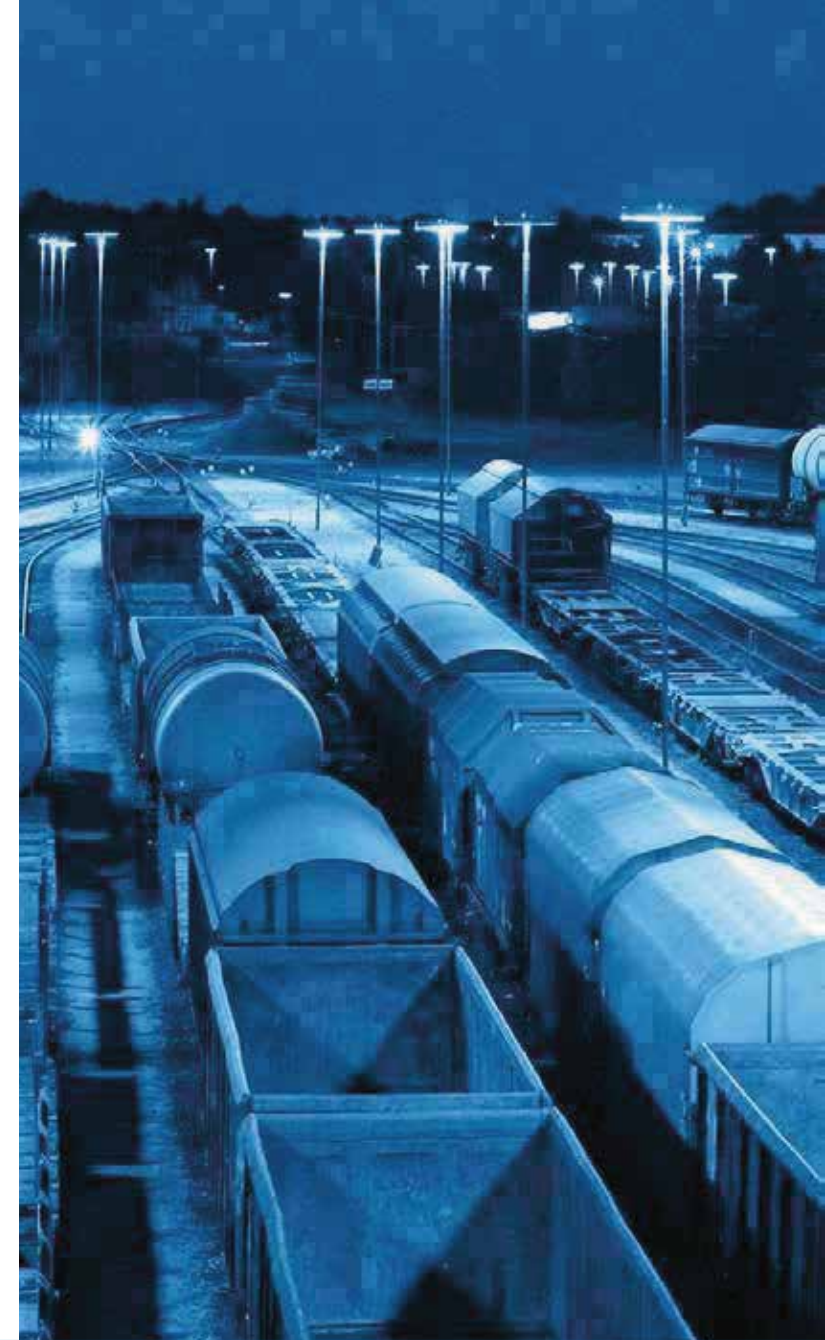

104 completed projects

— BREAK BULK DEPARTMENT

SCOPE OF SERVICES:

- Full range of services for conventional LCL and mass door-to-door cargo:
 - ship freight,
 - storage and reloading,
 - port services,
 - vehicle/rail/sea and inland waterway transport,
- many years of practice and an experienced team of specialists,
- intermediation and advice on cargo handling.

— FLEXITANK DEPARTMENT

LIQUID CARGO TRANSPORT

Flexitanks are used for road and sea transporting **liquid products**, which are not classified as hazardous.

Flexitank services include:

- verification of empty containers at the terminal,
- assembling a Flexitank in a container,
- transport of the container with the Flexitank to the place of loading,
- supervision while loading the cargo into the Flexitank, with an inspection company report,
- transport of the container with its cargo to the port,
- freight to the destination port.

Transporting goods in Flexitanks is considered to be one of the cheapest and most effective solutions for shipping liquid chemicals and liquid food cargo.

CUSTOMS AGENCY

- 13349 customs clearances handled in 2022,
- we have been an authorised AEO business for 9 years,
- we handle all types of import and export cargo,
- we employ a professional team of customs agents with many years' experience,
- we offer a full scope of services provided for in the Union Customs Code,
- we have permission to use the entry in the register and make simplified declarations with the possibility to apply Art. 33a of the Act on VAT and receive centralised customs clearance,
- customs clearance: Gdynia, Gdańsk, Pruszcz Gdański, Szczecin, Warszawa, Pruszków, airports: Okęcie, Łódź and Katowice, and terminals in Małaszewicze and Łódź.

CUSTOMS AGENCY DEPARTMENT

SCOPE OF SERVICES:

- representing contractors in dealings with customs authorities to the fullest extent provided for in the Union Customs Code,
- making customs declarations in ordinary and simplified procedures,
- making declarations and submitting license applications for economic customs procedures such as processing and temporary clearance,
- filling in certificates of origin, TIR and ATA carnets, INF and T2L documents,
- submitting applications to obtain Binding Tariff Information,
- supervision of VAT settlements with customs authorities pursuant to Art. 33a of the Act on VAT,
- assistance if customs officers examine goods.

WAREHOUSING

SCOPE OF SERVICES:

Warehousing services are an increasingly important part of our logistics solutions. We specialize in storing cargo in warehouses located **near port and inland terminals in Poland**. Additionally, we assist our Clients if they are interested in using warehouses **located on the most important transport routes**. This is an excellent solution for **both importers and exporters** who need, among others, **short- or long-term storage, as well as consolidation and deconsolidation of cargo**.

We provide a wide range of additional services such as: **handling and deconsolidation, foiling, banding, labelling and weighing of goods**.

INSURANCE

Insurance of goods in transport is a very important part of running a safe business. The cargo insurance we offer is addressed to **all entrepreneurs**, using **any type of transport**. The purpose of the insurance is to **protect the financial interests of the goods' owner in case of damage**. By paying a low insurance premium, importers and exporters gain the possibility to **recover their money in case of loss or damage of goods during transport**. We offer the widest range of **ICC (A) insurance cover**.

Cargo insurance ensures protection of the transported cargo along the **entire route of the service**, i.e. from the moment of the cargo's shipment until its delivery at the place of destination (including during reloading operations, possible inspections and during storage).
