FRUIT WINE MANUFACTURE

WINE OFFER

Ladies and Gentlemen,

We cordially invite you to familiarize yourself with our offer of DiWine Fruit Wines Manufacture. Through our activity, we want to rebuild the tradition of exquisite fruit wines from the interwar period. The primary goal of our project is to build a model that will allow us to manage our fruit. It is often not profitable for farmers to harvest their crops due to their low prices. We want them to process fruit into tasty Polish wine in local wineries. We believe that we will convince consumers to buy Polish products, because they have a real impact on the development of the Polish economy.

We are a young brand that ambitiously promotes the idea of Polish fruit wines. Our work was noticed and in 2022 we received the Luxury Brand of the 2022 Year award. We were also awarded the statuette of ORŁY WPROST in the Gold 100 of Polish Agriculture plebiscite. Our work was also noticed by the Chancellery of the President, who decided to give gifts with our product. We also win industry awards. Our wines received a gold medal and the Grand Prix as well as bronze medals at the Berry Fest - National Review of Blueberry Alcohols. We invite you to cooperate by enclosing an offer and information about our activities.

With wine greetings,

Beata Iwańczyk Marcin Bańcerowski

DiWine was founded in 2020 by Beata Iwańczyk and Marcin Bańcerowski as a result of their shared passion and the belief that close cooperation between Polish entrepreneurs and farmers, based on tradition and value as well as modern solutions, is a way to establish a renaissance of Polish fruit wines from the interwar period. Positive opinions of family and friends inspired Marcin to set up a winery and start production on a much larger scale than the home privacy where he had been producing wine for over 7 years. Since then, together with Beata, they have been making key decisions in their wine business, searching for business partners among farmers and fruit growers, but also establishing cooperation with representatives of various industries that promote Polish craft services and products. DiWine is a thriving community of wine lovers that is growing every day.
