

Lukaszewski University

Welcome to Lukaszewski University

Lukaszewski University has been active for over 20 years and prides itself on educating entrepreneurial people, combining academic knowledge with business practice in its programs, and hard and soft competences. The idea and slogan of our university from the very beginning of its existence was "Knowledge - Skills - Competences" long before the same slogan appeared in the act "Law on Higher Education".

History of the University

Lukaszeowski University is a non-state university established by the company "Zarządzanie Personem Sp. z o.o." in 2001. It is the first university in Poland to specialize in issues related to Human Resources Management. It was founded in 2001 under the name of the Higher School of Personnel Management. Lukaszeowski University, a non-state vocational school entered by the Minister of National Education on April 20, 2001, entered into the register of non-public universities under the number "202" with the right to conduct studies in the fields of **Management** and **Administration**.

Our mission

The mission of the Lukaszeowski University is to educate specialist and managerial staff based on the latest achievements in science and technology so that they are well prepared to take up professional work in accordance with the requirements of the modern labor market and the needs of the national economy.

Ways of teaching

We carry out our mission through studies in the traditional form and via the Internet. Our task is to create free access to education using modern information technologies in teaching young people and improving the predispositions of managerial staff and companies.

Values

In its activities, the university is guided by universal principles and values rooted in tradition, such as: freedom of teaching, freedom of scientific research, pursuit of truth, respect for knowledge and skills, reliability in their dissemination, openness to new ideas and respect for people.

Bachelor

Management

A bachelor's degree in management provides knowledge that allows you to enter the areas of business, process management, or advertising. The graduate can identify and diagnose problems related to the management of human, material and financial resources as well as information

Administration

The field of administration provides students with the conditions for education in the field of study that guarantees comprehensive personal development. By building the desired qualifications and competencies, it enables graduates to meet the requirements of a competitive labor market.

Management

Characteristics of studies

Duration: 3 years / 6 semesters

Mode: Part-time, **Online**

A graduate acquires many practical skills, such as valuable communication and persuasion skills in business, which will translate into effective debate, negotiation and persuasion. Knowledge of social sciences, basic knowledge of psychology, law and economics as well as the ability to analyze the most important economic phenomena will certainly help.

More importantly, he will be able to assess the economic and financial situation of commercial, public and local government entities, which in turn will allow him to effectively run his own business or manage companies in managerial positions.

What is management?

Characteristics of studies

Duration: 3 years / 6 semesters

Mode: Part-time, **Online**

According to Peter F. Drucker, in a modern organization, a "manager" is any knowledge worker who, by virtue of his position or knowledge, is responsible for the work input that physically affects the organization's ability to achieve. This may be about the company's ability to create a new product or to increase its share in a given market.

In the colloquial sense – manage – means to direct or administer.
There are many definitions of the term management:

- the ability to set goals and achieve them,
- management skills, i.e. managing the organization's resources,
- the ability to transform chaos into order.

Specializations in the field of Management

- BUSINESS AND ECONOMY
- CYBER SECURITY AND COMPANY PROTECTION
- HOSPITALITY AND TOURISM

Administration

Characteristics of studies

Duration: 3 years / 6 semesters

Mode: Part-time, **Online**

The education program in the field of administration takes into account the principles of cooperation between the University and the socio-economic environment. The field of administration implements the main goals of both the mission and the strategy of the Łukaszewski University. It does this by shaping modern personnel (the elites of local spheres of social and economic life).

It also contributes to the formation of a knowledge creation center as well as the development of legal and administrative skills. Education in the field of study allows you to learn and understand the basics of administrative law and the principles of its creation as well as selected issues of civil law, as well as acquire the ability to use this knowledge to solve legal problems.

What will the administration provide you with?

Characteristics of studies

Duration: 3 years / 6 semesters
Mode: Part-time, **Online**

The study program provides the acquisition of knowledge and practical skills in the field of administrative proceedings, including editing administrative acts and official correspondence, as well as learning the legal basis of the work of an administration employee and the principles of official ethics and professional duties of officials.

In addition, one of the specializations in the field of Administration - the administrative functioning of EU institutions - is also dedicated to candidates for studies from countries applying for accession to the European Union.

AN EXAMPLE FRAME FROM THE ONLINE CLASSES

Termin „przedsiębiorczość”

- po raz pierwszy pojawił się na przełomie XVIII i XIX wieku. Związany był z rewolucją przemysłową i rodzącym się kapitalizmem. Powstawały wówczas nowe formy gospodarowania i zarządzania. Zjawisko przedsiębiorczości zostało opisane w dziełach przedstawicieli ekonomicznej myśli liberalnej: Adama Smitha, Jean-Baptiste Saya i Josepha A. Schumpetera.
- Do literatury naukowej termin „przedsiębiorczość” wprowadził Say, który przedsiębiorcą określił osobę inwestującą zasoby w nieznaną i ryzykowną przyszłość. Uważał, że przedsiębiorca przenosi kapitał z obszaru o niższej zyskowności do obszaru o wyższej wydajności i zysku.

Our students can choose a form of study adapted to their organizational and financial capabilities depending on the chosen career path by studying online.

Classes are held on weekends online, which allows adapting studies to the life of even the busiest people.
